Community Concerns:

Mr. Davis, Department of Public Works, addressed issues of trash in Ward 7 along Pennsylvania Avenue between 295 and Minnesota Avenue and in other high traffic areas in the ANC. Commissioner Humphrey said he would try to get more information on expanding trash collection in the area by the September meeting.

Signage for public meetings should be improved in the ANC and around the actual meeting location.

New meeting location is noisy and it is difficult for people attending the meeting to hear what people say.

The website could show photos of the entryway to aid wayfinding for attendees. Also the website should show the meeting time and agenda items. A different website maintained by the District government shows the meeting time as 7pm.

Commissioner Johnson and residents of 7B05 discussed the communication between the Commissioner and constituents and the process of responding to the DDOT curb cut application. Other residents expressed concerns about availability of Commissioners, lack of communication, and the absence of information on the ANC website.
